

# Cold Chain Packaging Solutions Leader

COMMERCIAL PHARMACEUTICAL DISTRIBUTION

**PELI**  
**BIOTHERMAL™**

# Protect Your Bottom Line with the Right Temperature-Controlled Solutions

When shipping large volumes of pharmaceutical products, temperature excursions mean the difference between profit and loss. Peli BioThermal works with you to find the right temperature controlled solutions, even for the most challenging shipping lanes.

Whether working with small molecule or large molecule biologic drugs that require even more precise temperature control, Peli BioThermal offers affordable solutions that protect payloads ranging from sub -65 degrees Celsius to ambient room temperature.

## Increasing Complexity Drives Greater Need for Temperature Control

Bringing a commercial product to market is no small feat. You find yourself navigating new challenges not seen in drug discovery or clinical trials. Whether working with small molecule or large molecule biologic drugs that require even more precise temperature control, Peli BioThermal offers solutions that protect payloads ranging from sub -65 degrees Celsius to ambient room temperature.

### Sustainability

Rent. Reuse. Recycle. We're on a journey to protect our environment and our planet one package at a time.

### Innovation

Our team thrives in the area between problem and solutions to develop cold chain packaging innovation.

### Reliability

Our customers trust us with their most valuable, health-giving and life-saving products.

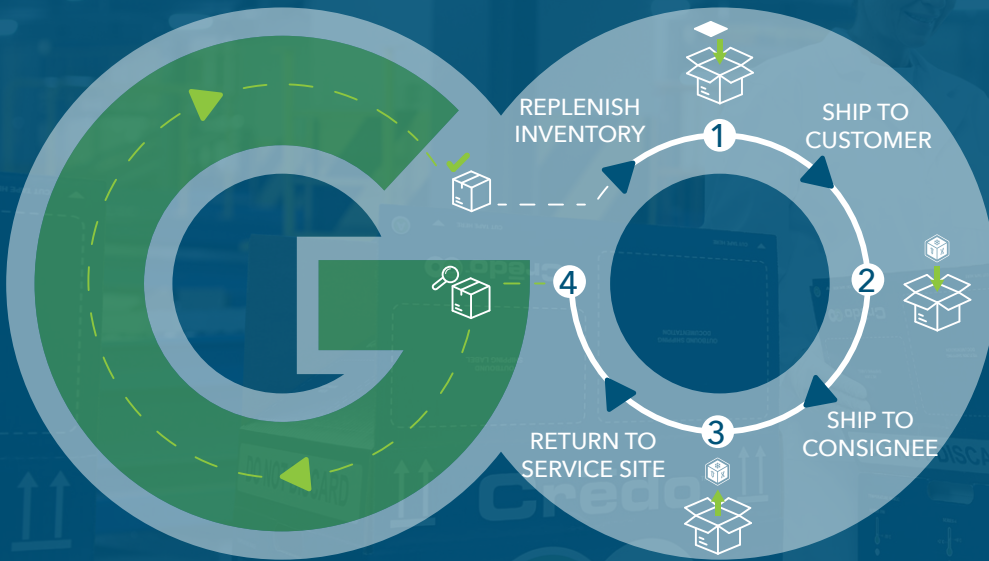

## THERMAL PACKAGING TECHNOLOGIES ON A GLOBAL SCALE

Peli BioThermal's innovative single-use and reusable thermal packaging products are used by leading global life science industry companies and organizations in pharmaceuticals, biotech, laboratory, diagnostics, and military/government sectors to protect and safely transport their most critical temperature-sensitive tissues, biologics, diagnostic, devices and vaccines. We offer the most diverse and trusted selection of cold chain packaging solutions, worldwide manufacturing and service centers staffed by cold chain engineering experts and provide an easy-to-use, web-based asset management service that allows organizations to track individual shipments from start to finish while setting up automated reminders for key logistics processes.

# INTRODUCING CRĒDO™ GO – COLD CHAIN PACKAGING DESIGNED TO MEET COMMERCIAL DISTRIBUTION

The journey of the Peli BioThermal Crēdo™ Go reusable parcel begins with shipping it to the commercial pharmaceutical company pre-cooled. It then travels to their end-use customer and is ultimately returned to our service center to be refurbished for the next journey.

**Crēdo™**

## OUR PROCESS

- 1 PREPARE**
  - COOLANT CONDITIONING
  - BOX ASSEMBLY
  - QUALITY TRACKING ENABLED
- 2 PACK OUT**
  - PRE-CONDITIONED JIT DELIVERY
  - SIMPLE AND REPEATABLE PACKOUT
  - FAST AND CONSISTENT CYCLE TIMES
- 3 DELIVER**
  - DELIVERED WITHIN TEMPERATURE
  - FAST AND SAFE PAYLOAD REMOVAL
  - EASY TO FOLLOW RETURN PROCESS
- 4 REFURBISHMENT**
  - INSPECTION AND CLEANING
  - REPAIR AND RE-TEST
  - COMPONENT RECYCLING

## It's the Journey and the Destination

**1**  
**SHIP**

- Choose from parcel or pallet shippers
- Payload protection from sub -65 degrees Celsius to ambient room temperature
- Single-use or reusable temperature-controlled solutions
- Flexible bulk rental and leasing programs

**2**  
**TRACK**

- Crēdo ProEnvision™ software as a service – full traceability and transparency
- Worldwide view of shipper movement and asset management
- Temperature monitoring capabilities
- Audit trail for regulatory compliance

**3**  
**SERVICE**

- Global network of service centers to support reusable shippers
- Shipper conditioning and refurbishment for reuse

## PERFORMANCE YOU CAN DEPEND ON

All Peli BioThermal products are qualified against the highest standards, including the ISTA 7D standard.

### SINGLE USE

#### PARCEL

CoolGuard™ Advance

CoolGuard™ PCM

### REUSABLE

#### PARCEL

Crêdo Cube™

Crêdo™ Go

### PALLET

CoolPall™ Flex

CoolPall™ Vertos

### PALLET

Crêdo™ Cargo

Crêdo Xtreme™
